

Connectivity Services

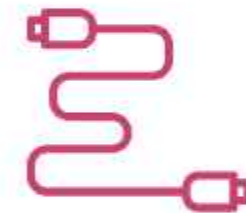

NETERRA
telecommunications

Layer 1 & Layer 2 Services

Access high capacity, scalable and topology optimized fiber solutions. Rent **dark fiber** or take advantage of our **DWDM** point-to-point service. Fiber and equipment are 100% dedicated to a single customer.

Ethernet & IP VPN services provide you with guaranteed and secure data transfer for in-house applications, centralized Internet access, voice and video communications. We offer symmetrical speeds, high reliability and proactive 24x7 surveillance.

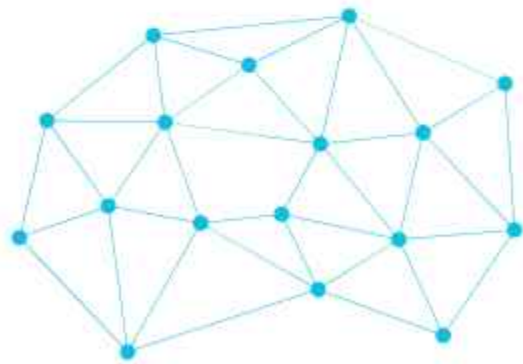

DIA & BIA

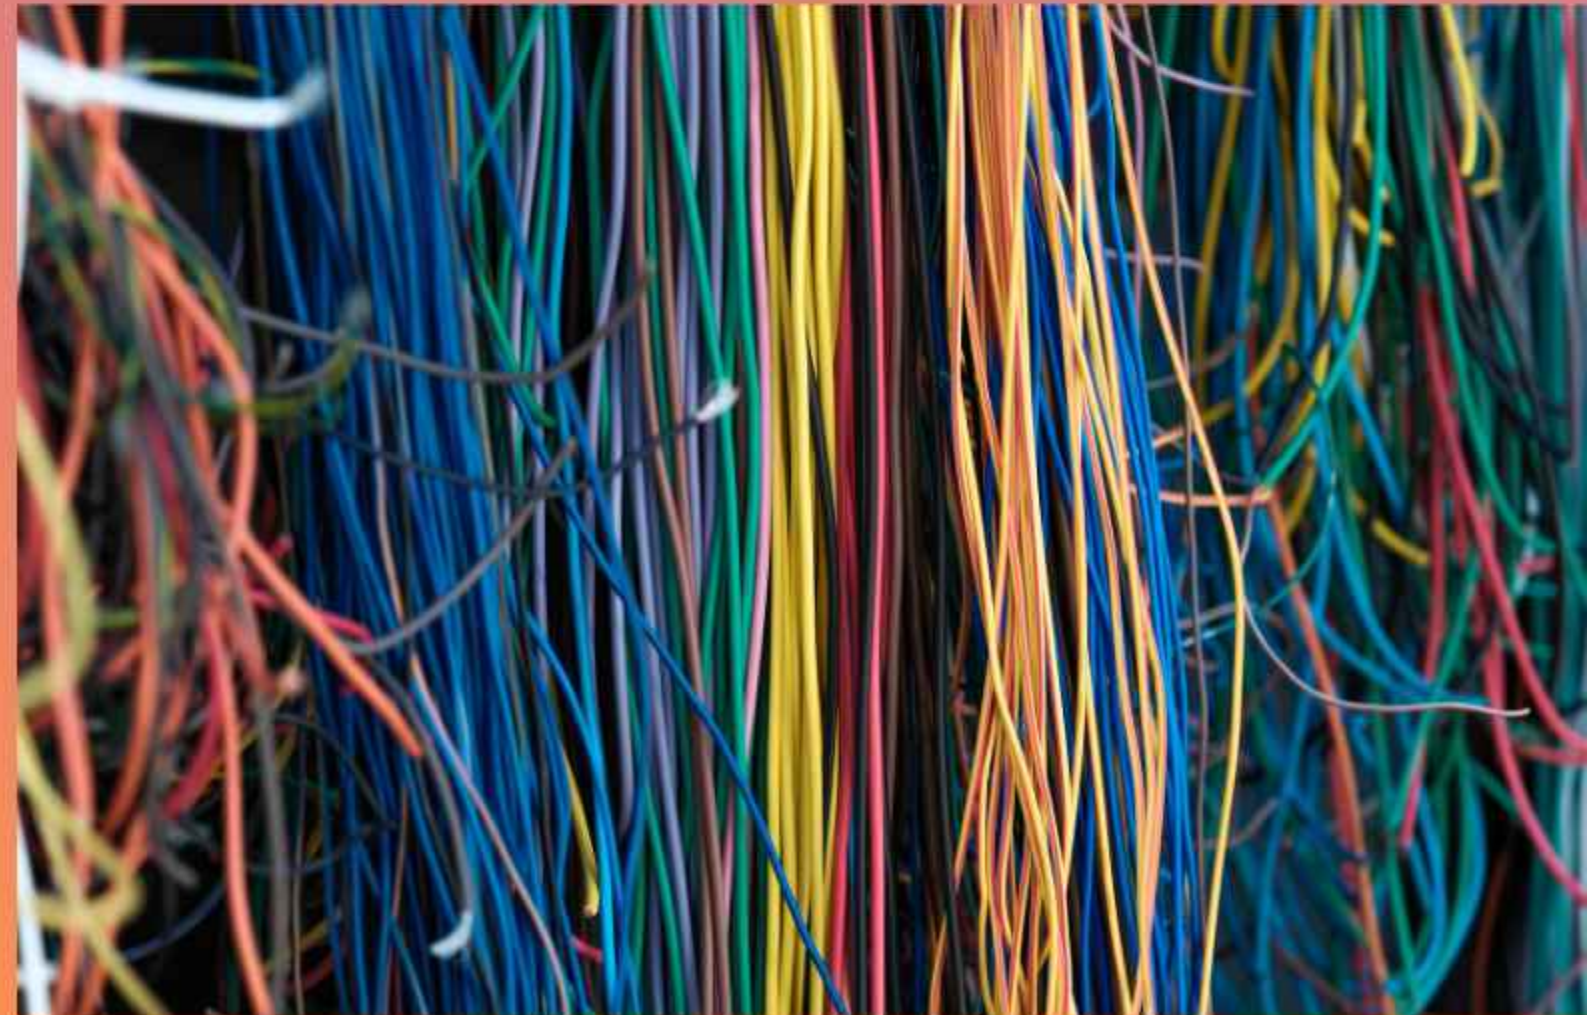

Neterra offers business Internet access to companies requiring a high-level connectivity service for their mission-critical business communications, applications and network.

Global coverage of **over 220 points of presence** worldwide and **Sofia metro fiber network** for business internet and connectivity services.

With Neterra's **Dedicated Internet Access (DIA)**, you're **SLA guaranteed** to receive **100% of your bandwidth** commit **100% of the time**.

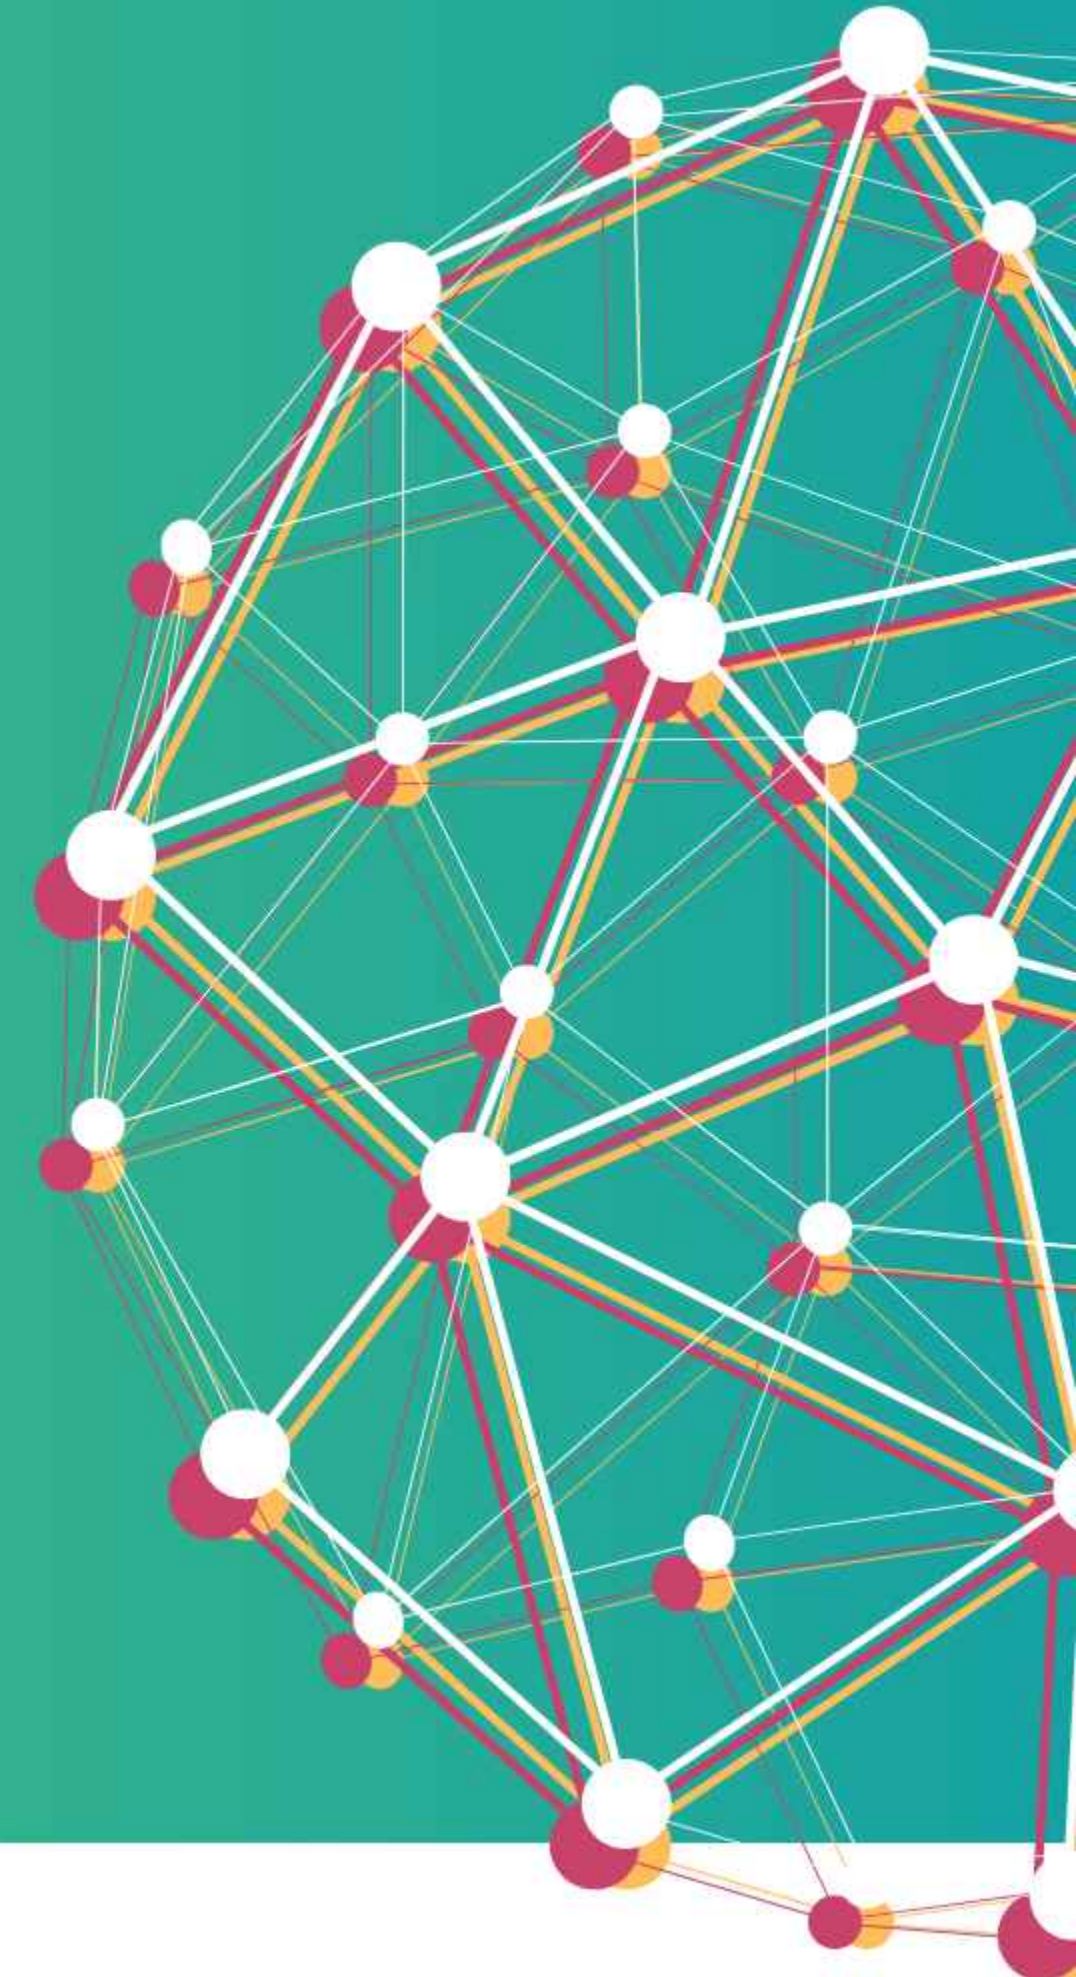

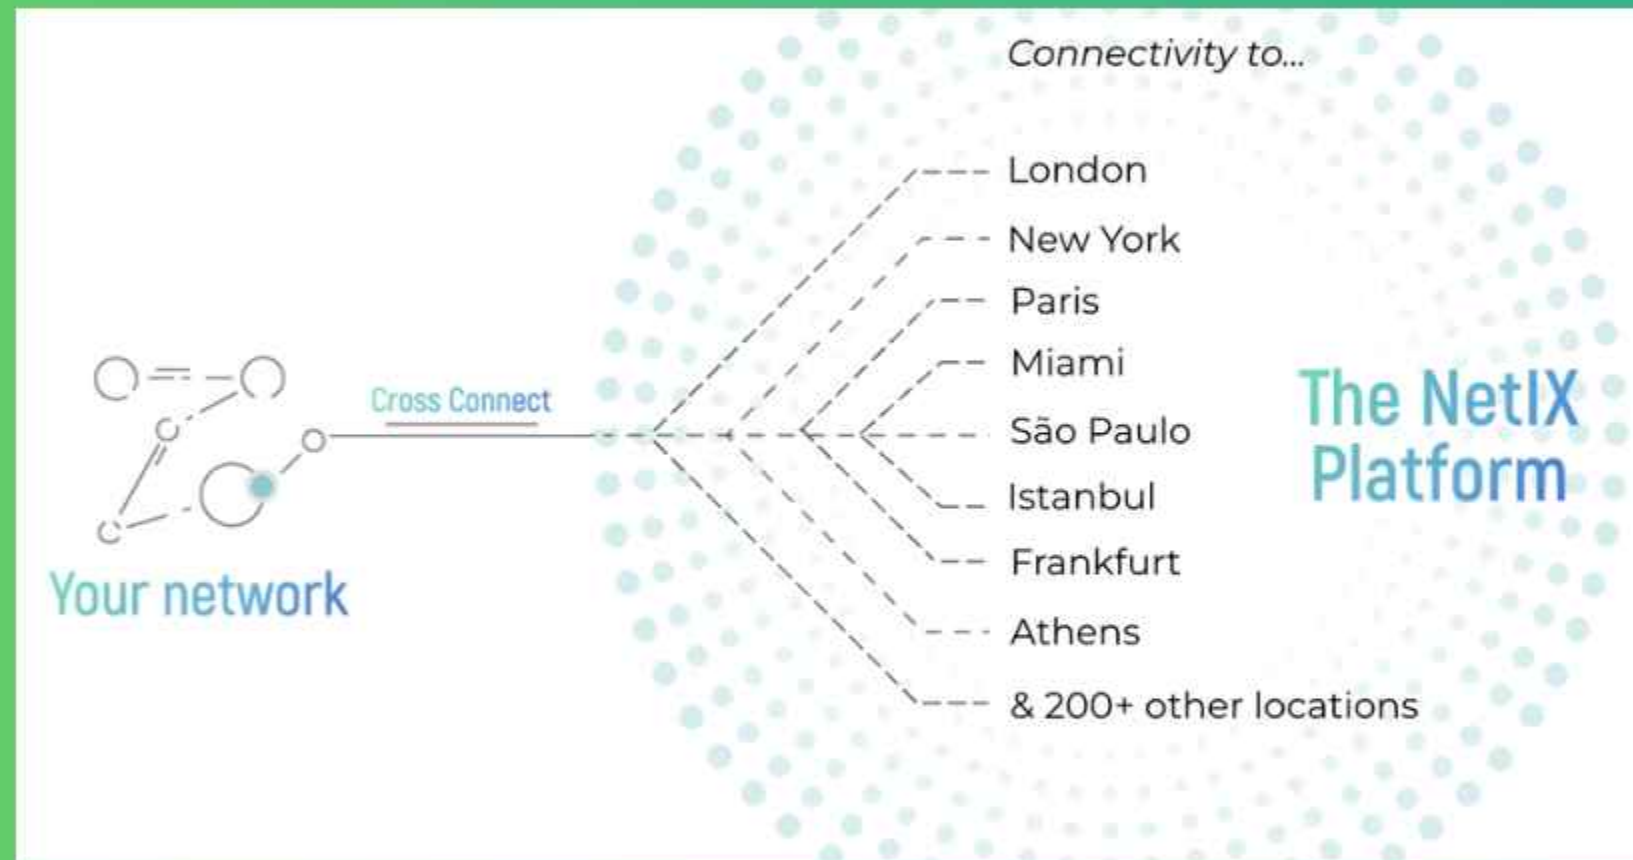

High-quality Broadband Internet Access at a **reasonable price** - the golden ratio with Neterra's **BIA** and **Global IP transit**.
