

Store and manage
your data in
a flexible and secure
infrastructure

CLOUDWARE
powered by **NETERRA**
telecommunications

www.cloudware.bg

Cloudware will assist you in choosing the most appropriate and effective technical solution for your business case, your needs, and your planned budget.

Configure cloud servers or rent physical servers, securely stored at Neterra's data centers instead of allocating huge resources in buying equipment.

With our professional 24/7 IT support you optimize and control effectively your systems at any moment.

CLOUD SERVERS

Reduce the time to start or expand your business

- ▶ High-performance cloud servers with SSD drives
- ▶ Pay only for what you use
- ▶ Create a server in less than a minute
- ▶ No contract or long-term commitment
- ▶ Online access via control panel

DEDICATED SERVERS

High quality components, tested before put into operation

- ▶ Two power modules to ensure work continuity
- ▶ Full remote access to your server via an IPMI controller with separate connectivity and a separate IP address
- ▶ 24/7 free and unlimited server restarts
- ▶ 24/7 early diagnosis, prevention, and troubleshooting using an online monitoring system

24/7 IT SUPPORT

How can we help your business?

- ▶ Consultation on your server configuration
- ▶ Installation, configuration, and system administration of different server types: Web, Database, File, Mail, DNS, Backup, etc.
- ▶ 24x7 monitoring of your systems and services
- ▶ Hardware support
- ▶ Rental of a highly qualified IT specialist - either ad hoc or on subscription basis
- ▶ Supply and installation of equipment and spare parts

Why Neterra is your best choice?

- ▶ High speed connectivity and reliable access to the Internet
- ▶ Complete maintenance and management of your dedicated server by our professional team
- ▶ Free initial installation of your server with an operating system of your choice
- ▶ Independent system at your full disposal (unlike shared hosting)
- ▶ Data security
- ▶ Flexibility to change active services to your current needs

We provide a highly qualified IT support, so you can easily focus on your core business!

Where is your equipment located?

S.DC
SofiaDataCenter
